

9/8-2021:

Next year we (if circumstances allow us to arrive again) will celebrate 25 years of regular visiting of Borgen Ski-Arena. Thanks to all involved for providing us with this possibility - it helped to educate many young Slovak orienteers - and some of them even managed to be on podiums at European Youth Championships. We do not have similar terrains in Slovakia, so the chance to train here is critical.

I attach photo from our first visit in 1997 for fun - older boy is already "double father".

Juraj
